

# BATCH PUBLISH CAD DATA TO INTELLIGENT PDFs!

*Register now to attend a FREE live web seminar and learn how to:*

Easily publish all your CAD data to bookmarked, hyperlinked, text-searchable PDFs that are viewable and searchable with the FREE Adobe Acrobat Reader

Use powerful engineering plug-ins to Acrobat (measure distance, zoom to latitude/longitude, perform take-off, print-to-scale, ...)

Use Acrobat for Review & Markup, online collaboration, Security & Encryption, digital signatures and searching across a library of PDFs

Make all your CAD, mapping and GIS data quickly and easily available to your end users

## WANT MORE INFORMATION ON CAD2PDF?

On the MicroStation side, CAD2PDF supports native MicroStation font libraries, MicroStation reference attachments (design and raster), MicroStation color tables, and Intergraph IPLOT pen tables. Ask us about inexpensively delivering your FRAMME, FieldView, AutoCAD, plot files and other engineering data to your users via the free Acrobat Reader!

To register and secure your space for our FREE live web seminar, email your name, title, company, phone number and mailing address to [register@layton-graphics.com](mailto:register@layton-graphics.com)

Service Provider Program

### CAD2PDF Product Features

- ▶ Extremely fast – processes over 1 megabyte of CAD data per second; publish tens of thousands of DGN and DWG files to PDF each day.
- ▶ CAD2PDF maintains text-searchability in the published PDFs.
- ▶ Automatically generates bookmarks and hyperlinks to customer specifications.
- ▶ Faithfully publishes hybrid (vector/raster) CAD files.
- ▶ CAD2PDF allows for publishing embedded latitude/longitude, GIS and attribute data into PDFs.
- ▶ Open Application Programming Interface

### CAD2PDF Expert CAD Publishing Solutions

- ▶ Publish complete hyperlinked, bookmarked, text-searchable PDF bid sets with one click.
- ▶ Create fully content searchable drawing archives in PDF for long-term storage and searching of drawings.
- ▶ Publish mapping and GIS (FRAMME) data to PDFs with embedded attribute data that can be viewed and printed for free.
- ▶ Stand-alone system — no additional software required to create PDFs
- ▶ CAD2PDF integrates with document management and drawing systems for enterprise expert CAD publishing.
- ▶ Flexible configuration options to match application or workflow requirements.
