

WHO KNEW CAD FILES COULD MOVE SO FREELY?

WHAT IF YOU COULD...

- ... distribute your engineering data in a format that anyone, anywhere can view?
- ... provide a simple user interface for clients and partners to redline, review and mark-up drawings with changes submitted realtime over the web or via e-mail?
- ... search and find any drawing for your plant or equipment in a matter of seconds?
- ... have easy navigation tools that allow you to drill down to called-out data attributes within any drawing for a plane, ship or an entire plant?

NOW YOU CAN WITH CAD2PDF!

Layton Graphics, Inc. is proud to present the CAD2PDF Translator, featuring next-generation CAD to PDF technology.

- Batch convert AutoCAD® and MicroStation® files to **text-searchable** vector resolution PDFs.
- PDF files can be distributed and viewed for FREE using Adobe® Acrobat® Reader. Or use Adobe® Acrobat® 5.0 to view, redline, review, mark-up, digitally sign and secure PDF files.
- Create searchable libraries of PDF engineering documents allowing almost instant access to any drawing.
- Additional customized plug-ins to the full version of Acrobat allow you to take full advantage of the power of PDF.
